About the Conference

The *International Conference on the Theory, Methods and Applications of Nonlinear Equations* will be held **December 17 - December 21, 2012**.

The Main aim of the conference is to promote, encourage, and bring together researchers in the fields of Ordinary Differential Equations, Partial Differential Equations, Integral Equations, Integrodifferential Equations, Stochastic Differential Equations, Impulsive Differential Equations, Operator Equations, Difference Equations and Dynamic Equations on Time Scales. A special emphasis will be on the applications of Nonlinear Equations.

Kingsville Texas is a friendly safe city of 25,000 that is the home of the legendary King Ranch. It is a city where heritage and history blend perfectly with nature and wildlife. and its beaches are just 40 miles to the northeast, and the border with Mexico is 120 miles to the south or 199 miles to the west at Laredo. The Texas A&M-Kingsville main campus consists of approximately more than 80 buildings. The University Farm consists of 545 acres of land located near the campus. In December, the weather in Kingsville is very pleasant. Temperatures range from 45°F to 70°F.

Ravi P. Agarwal (Chairman)

Wanda M. Badger (Conference Secretary)

To Be Announced

- Participants
- Pictures
- Accommodations
- Schedule
- Information
- How to Arrive
- Social Program

Will be added as active navigation as more info becomes available.
